

# ROSYTH SCHOOL PARENT SUPPORT GROUP NEWSLETTER 2022

## MESSAGE FROM THE SCHOOL

My warmest greeting to every Rosythian and parents. To our new P1 students and those who are newly transferred to the school, welcome to our Rosyth family. I have recently joined Rosyth School in mid-December 2021 as the Vice-Principal (Administration). Like our new P1 students, I am excited and encouraged by the warmth and welcoming reception from all our Rosythians. It is indeed an honour and privilege to serve in Rosyth School and working alongside with a team of professional, committed and truly passionate school leadership team, teachers, admin staff, contract cleaners, security officers, canteen vendors and stakeholders. Together, I hope we can deepen the partnership and collaboration amongst the teams and stakeholders to bring the joy of learning to our children, supporting every Rosythian in enabling them to develop holistically to achieve academic excellence and preparing them to learn for life.

I started my school leadership journey in MOE as Vice-Principal (Administration) in Pasir Ris Primary School in 2016. Prior to joining MOE, I had served in the SAF (Army) for 32 years in numerous command, staff, instructional and training appointments. I had also spent almost 3 years with a private company, Cubic Defence New Zealand as their Director Operations from 2013 to 2015. Having spent a large part of my career serving in the Army, and watching the recent Russian-Ukraine war reporting in the daily news, it resonates strongly in me on the need to continuously deepen our people's Commitment to Defence. Together with character and citizenship education (CCE), national education (NE) forms an integral part to the holistic development of our students, leading to positive life outcomes. Every year on 15th February, we commemorate Total Defence Day, to recognize and appreciate Total Defence as important because it involves every Singaporean playing a part, individually and together, to build a strong and secure nation. When we are strong as a country, we are better able to deal with any crisis or threats together.

My two-and-a-half month in Rosyth School has been an exciting and assuring experience for me. I am heartened to join the team of caring and committed staff with the steadfast belief that every Rosythian is precious to us. Steered by our belief that "every child is precious to us", we are committed to developing all our students holistically through the curriculum and co-curriculum, inculcate values and nurture within them a heart for service to the community to foster social responsibility, broaden their imaginations and building in them a spirit of excellence in everything that they do.

Together with the School Administration Team, we are committed to a safe and supportive school environment for all Rosythians to learn and grow as individuals and as part of our larger Rosyth family.

We recognize education as a lifelong journey and aim to anchor in our students in our school's core values, the '1-CARE' values to develop their competencies and qualities that will stand them in good stead to meet future challenges. Ultimately, we desire for our students to be resilient Lifelong Learners with the capacity to learn from every experience so that they can stand strong under challenging circumstances, including failure, seek innovative solutions to resolve problems and always be ready to serve others.

To achieve these outcomes, we value our partnerships with Parent Support Group (PSG), parents and stakeholders. As our students embark on their educational journey, we have built strong partnerships based on mutual understanding, respect and trust, to journey alongside our Rosythians meaningfully, giving them the support they need to help them realize our school motto "Ready to Serve"! On behalf of the school, I would like to express our sincere appreciation to our PSG led by Ms Eunice Tay (President), Ms Suzan Koa (Vice-President), Ms Fiona Chiu (Vice-President) and the supportive EXCO members. Thank you!

Mr Tan Boon Seng  
Vice Principal (Administration)

Eunice, President of Rosyth PSG, with her husband, son and daughter

*" Being in the PSG had allowed me to be well-informed about what goes on in my child's school. I urge all Rosyth parents to join the PSG as, like me, you will also gain the support from other parents in your parenting endeavour through this network"*

## PSG PRESIDENT MESSAGE

On behalf of the Rosyth School Parent Support Group, I would like to welcome Mr Tan Boon Seng, the newly appointed Vice Principal of Rosyth school, our returning students, new students and families to the 2022 school year. We are very thankful to the entire Rosyth School community for the extraordinary effort that was taken on by all of you during the previous school year. This effort, through unprecedented circumstances, has preserved the strong foundation of our community and allowed us to enter this new school year with hope, optimism, and an excitement to find new ways to connect with one another, while carrying out the rewarding work of supporting our school and students.

Rosyth School Parent Support Group (PSG) is a non-profit voluntary organization. Our aim is to bridge the communication between the school and the parents as well as to organize exciting programs for our Rosythians. For the past two decades, Rosyth PSG has been providing meaningful weekend and holiday enrichment programs to our pupils. These programs are tailored to cater to the pupils' interests and broad-based holistic learning needs. We take great pride in collaborating with the school and parents to support the pupils in their learning and character development. We will continue to improve our service so that pupils can be better prepared for the demands of the coming future.

Rosyth PSG is extremely blessed to have the unwavering support of the school. Being in PSG allowed me to witness first hand the school's effort to provide a holistic education for the children.

Since 2020, we have had experienced unprecedented changes and many adjustments to our lifestyle. Our children's classrooms shifted from in-person to home based learning (HBL). In a very short amount of time, the school had to think, learn and adapt very quickly to new teaching platforms and tools. When physical class resumed amid social distancing guidelines, they too had to take on additional scope and worked tirelessly to make school safe for our children. For all of these reasons and more, I would like to express my gratitude to the school leaders, teachers and staff for going above your call of duty.

This is my eighth and final year serving the PSG, as my second child will soon complete her primary school journey in Rosyth. During these 8 years, I am extremely honored to have served alongside a team of very passionate, dedicated and selfless parents. Being in the PSG had allowed me to be well-informed about what goes on in my child's school. I urge all Rosyth parents to join the PSG as, like me, you will also gain the support from other parents in your parenting endeavour through this network.

2022 will be an exciting year. I wish all parents and students a great year, blessed with great health, happiness and success.

Sincerely,  
Ms Eunice Tay  
President  
Rosyth School Parent Support Group

# WEEKEND ENRICHMENT PROGRAMS

One of the key role of the Rosyth PSG involves organising weekend enrichment activities for Rosythians to develop holistically at subsidised rates. These activities are held in the school grounds during the weekends and therefore are highly convenient for parents and students. With the aim of exposing Rosythians to a wide array of sports, arts and other cultural related endeavours, every year we assemble an exciting lineup for the children in our school. With the gradual relaxations of Safe Management Measures (SMM), we are looking forward to safely resume the wide array of holistic activities for our children in Rosyth School.

The PSG sources quality service providers to manage these weekend activities for the Rosythians, and they have been very successful, with many of the Rosythians wining national awards. You can find the listing of the weekend activities in the next 2 pages of this newsletter. You can also read about the experience of a Rosythian's mum, whose son has benefitted from the Wushu enrichment activities to build discipline, resilience and character of strength in his personal growth.

We strongly believe that a well-rounded child is a healthy and happy child, A balanced life will also lead to better academic performance. Do take a look at the weekend activities listing and see if any of them interests your child!

“

**If we want our children to move mountains, first we have to let them get out of their chair..**

”

## SPOTLIGHT ON PSG WUSHU ENRICHMENT PROGRAM

PSG got down to chatting with Catherine, who is the mother of Skylar Cheong. Skylar was the winner of the National School Games (Wushu) 2021 in 2 categories. He came in first for the Duan Broadsword and placed 3rd for the Duan Nanquan category. He was also a member of the PSG organised Wushu classes which were held on the weekends in Rosyth School.

Catherine is a working mum with 4 children. One of the focus of Catherine's parenting is to cultivate an appreciation for the Chinese culture and values in her children. In addition, she believes in teaching her children to work hard first before enjoying the fruits of their labour. It was truly a pleasure chatting with her as one can sense her modesty when talking about the successes of her children.

Catherine does not place academic success as the focus of her parenting. In fact, if there is one thing she regrets most is that she would have preferred to encourage her two older girls to participate more in sports and other extracurricular activities than just focusing on their exams or for school tests. Having had the privilege of hindsight, she observed that when she changed her focus to sports for her two younger children, she could tell that they were happier and more courageous when surrounded by challenges, thus becoming more resilient.

Catherine shares more of Skylar's Wushu journey with us. Skylar started external Wushu lessons before he joined Rosyth School. The first few Wushu lessons were tough and he used to cry in the beginning. However, through perseverance, Skylar began to gain confidence during his Wushu classes. Through Wushu, Skylar also learnt more about the Chinese culture and the Chinese language from his coach who is a native Chinese. I also observed that in the Wushu classes, the kids learn to withstand "hardship" as they have to hold on to their stance for a long time. The learning environment is also a positive one, where the coach is very nurturing and always explains the reasons for each move or technique.

**Rosythian, Skylar Cheong,  
Winner of 2021 National School Games  
Duan Nanquan, Duan Broadsword**

# SPOTLIGHT ON PSG WUSHU ENRICHMENT PROGRAM

## **Can you share a setback your children faced during the Wushu journey?**

That would be having to juggle training time and family time. He would also be very tired after the training and he would sleep in my car. While I feel on his behalf, it's a consolation because he likes Wushu so much. As a parent, I understand that children can get bored and tired or just want to give up.

## **How do you help your children get back on their feet when they think of quitting?**

Parents can help set an example for their children. I never say "I am stressed" to my kids or to my family members. It is very important for parents not to steer their children towards unhealthy thinking. I believe in positive thinking and will replace the phrase "I am very stressed" with "I think I need a rest". Have a power phrase to keep them going!

## **What was your experience with the coaches and the PSG program in general?**

My biggest takeaway from the PSG weekend program was participating in overseas Wushu competitions, such as in China. It was an eye opener for Skylar and I think he had learnt not to be complacent about himself. However, Covid-19 has made it extra difficult to make the programs effective.

## **Laughter is a good medicine. Can you share a funny story with our readers, when your children were in wushu or in preparation for the competition?**

A funny story I have is that once during training, Skylar tore his wushu pants twice. He called and told me, "I tore my pants, now everyone can see my underwear!". I found it amusing and encouraging that he was able to laugh at himself and I think that's a great way to dissipate the tension or tiredness he might have felt.

**Left: Skylar and his family members taking time to carry out some volunteer work in his spare time. Right: Skylar and his mum Catherine.**

# PSG ORGANISED HOLIDAY PROGRAM

Apart from organising non-academic related activities for Rosythians to enrich their school life, the PSG also chips in whenever an extra pair of hands is needed by the school for key events that take place during the school term. This is however, not just restricted to physical help. At times, the PSG also looks for ways to provide some mental support for the staff of the school, particularly during this pandemic year, which has resulted in a lot of additional work for the staff! Read on to find out what PSG has been up to in 2021!

## Virtual Bonding (parent & child) with Handicraft Held in June 2021

In June 2021, as we were still under the constraints of the social distancing measures, the PSG was unable to organise any physical programs. However, we put together a very well attended virtual handicraft session that was meant to be a bonding session for parent and child.

Beautiful finished product

# PSG ORGANISED HOLIDAY PROGRAM

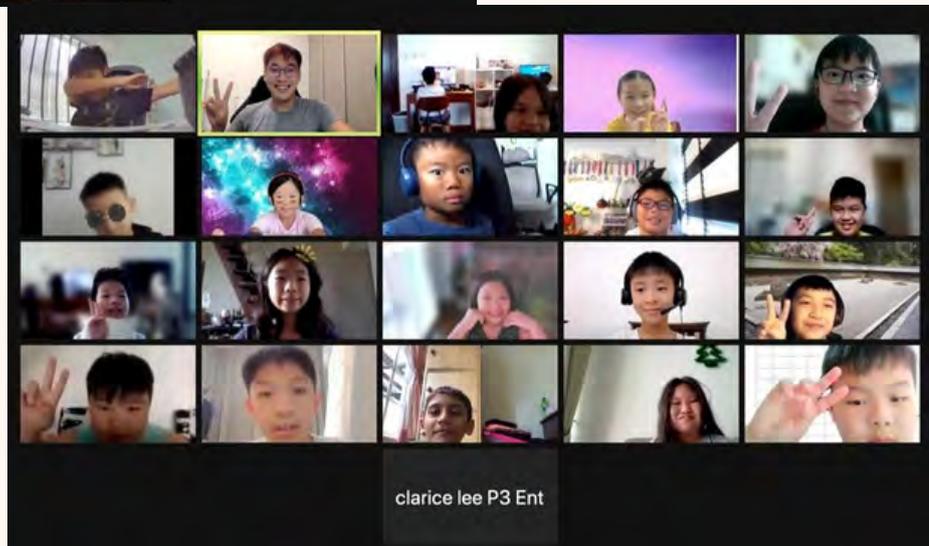

## Virtual Booster by Matthew Zachary Held in December 2021

Inspiring others to achieve more and becoming the best version of themselves... not via textbooks and theories, but through personal experience and application. This virtual workshop held in December 2021 for Rosythians in the upper levels, was both engaging and enriching!

" I seldom see my son participate so enthusiastically in a motivational related workshop. He was paying full attention and trying his best in all the activities that was being handed out by Matthew. It was indeed a very beneficial interactive session"

parent of Rosythian in Primary 5

# PSG'S INVOLVEMENT IN VARIOUS SCHOOL ACTIVITIES

## PREPARING A GIFT FOR THE AWESOME TEACHERS IN ROSYTH FOR TEACHERS' DAY!

Teachers' Day celebration in 2021 was also a toned down virtual affair. The PSG was unable to organise any celebration to thank the teachers for their hard work the entire year. However, we hope that our gifts to them will help make up for it!

Some pillows with words of gratitude should surely come in handy for a tired back! We had also prepared honey for the teachers because honey helps soothe the throat and boosts immunity!

As part of Rosyth School's I-CARE values, PSG encourages our parents to show your appreciation in words and support to the teachers that can come in anytime in the school year beyond Teachers' Day Celebration!

# PSG'S INVOLVEMENT IN VARIOUS SCHOOL ACTIVITIES

## PREPARING AND PACKING GOODIES FOR CHILDREN'S DAY

Unfortunately, for the second year in a row, there could not be a school-wide Children's Day celebration. The PSG was also unable to organise any celebration program for Rosythians for Children's Day. Thankfully, we were still able to pack and distribute goodie bags to the children. Hopefully, all will be back to normal for 2022!

**The finished product!**

**Neatly packed,  
ready for inclusion  
in the children's  
goodie bags**

# PSG'S INVOLVEMENT IN VARIOUS SCHOOL ACTIVITIES

## SUPPORTING MENTAL WELLNESS

Mental wellness has been a hot topic in the last 2 years, particularly since the Covid-19 broke out at the end of 2019. While parents and teachers were taking care of the mental wellness of the Rosythians, the PSG felt that it was also important to help boost the mental wellness of the staff in Rosyth.

During the year, the PSG had organised and packed gifts of herbal tea, coffee, and encouraging notes to the staff to let them know that their efforts were very much appreciated

Appreciation notes to the staff

Herbal tea with flowers to brighten up the day

*"A bad day with coffee is better than a good day without it"*

Packing behind the scenes

## SPOTLIGHT ON EX-PSG COMMITTEE MEMBER

**In this edition of the PSG 2022 newsletter, we reached out to Serene Pang, who used to be a PSG Executive Committee (EXCO) member. Serene last headed the Programs team before she left the PSG when her younger daughter graduated from Rosyth in 2019.**

**Serene is a working mum of 2 daughters and according to her, very thankful that her work allowed her a great deal of flexibility in terms of schedule. We felt that it might be useful to gain some insights from her, and share with readers about her experience being a PSG EXCO member, including how she juggled the various roles that she had. The following is the interview, in Serene's own words.**

**Serene Pang, an ex PSG EXCO member**

I signed up as a PSG volunteer when my elder daughter started primary one in 2011. At that time, I was very impressed with the type of outside-classroom activities that the PSG had organized, like the Adam Khoo camp, Tony Buzan mind-mapping classes or outings to interesting venues. I was approached at the end of the first year to join the EXCO, and there was no looking back. As a working mum, I was very fortunate and thankful that my work allowed me a lot of flexibility in terms of time, and scheduling such that I was able to contribute at PSG events and attend PSG EXCO meetings. I feel that it's very important to be a part of my kids' school journey, and that is why despite having to travel for my work regularly, I still decided to join the PSG EXCO.

During the good old pre-pandemic times when we still had physical meetings in school, I had the opportunity to see my kids in school while I was there and vice versa, and it made us very happy! My girls told me too they were so proud of Mum who helps out at school events. There are other perks to being part of the PSG family, such as interacting with other PSG parents and school personnel, and therefore enjoying a better understanding of the happenings in school.

I started off helping out in the Programs team, and subsequently took on the role of Programs Head. The Programs team was responsible for exploring new school holiday activities not offered in the classroom, which our Rosythians can benefit from. There was such a wide array of programs that the PSG had organised over the years, such as Financial Learning, Coding, Prata making, Social Etiquette, Kidzania journey etc. The Programs team would work with the vendors to customize a program for our students within the perimeter of affordable fees for our students. I must say, with the effort from every parent in the Programs team and contribution of ideas from the rest of the EXCO, we came up with quite a good range of activities over the year!

## SPOTLIGHT ON EX-PSG COMMITTEE MEMBER

*We got Serene to address head on, the burning question in every parent's mind – how much time commitment is required if they join the PSG EXCO!*

Honestly, I would be reluctant to equate the number of hours spent versus the precious memories, friendships and experience I've gained from being part of the PSG EXCO! Yes, as a parent, I've learnt so many things interacting with the school teachers and Principal and other parents during the quarterly PSG EXCO meetings. PSG EXCO meetings are usually capped at 2 hours. The EXCO is considerate and mindful of our time, especially for parents who are working. Additionally, I had found that other parents in the EXCO will always step up and contribute to help each other, so that helps a lot.

There are perhaps 3-4 school events which may require the PSG EXCO's help, like Sports Day, Racial Harmony day, Children's Day and Fun Fair every year. Assisting in such school events takes up maybe half a day but there is no mandatory hours required from us. The PSG Exco members will also take turns to help out during such events so there is no pressure!

*Serene's advice for parents who might be contemplating joining the PSG EXCO :*

*"I'll say, if you have the time, energy and interest, just go for it! Some parents are concerned that one needs to have an outgoing personality, or to have plenty of spare time on hand, or to have plenty of ideas to contribute, to be part of EXCO. Therefore, they may be hesitant. For me personally, my interest and desire to be involved overshadowed these concerns"*

Serene with hubby and 2 grown up ex-Rosythian daughters!

I have happily discovered that many parents who have signed up are of diverse personalities and background, and this melting pot of PSG EXCO turned out to be an amazing team to work with! I am glad that I have made the decision as it has enriched my girls' and my experiences in their formative years at Rosyth School. If you never try, you'll never know! If you do sign up to be part of the Rosyth PSG EXCO family, I hope that you will enjoy your PSG EXCO journey as much as I have! All the best!
